

RETAIL PRICE LIST 2025

GENERAL SALES CONDITIONS

PRICE: the prices are valid except for possible misprints and are intended ex Works, excluding: packaging, transport, and any other shipping costs. Furthermore, prices may be modified without previous notice, depending on possible rises in costs for monetary fluctuation and raw materials.

PAYMENT CONDITIONS: in case of delayed payment as regards agreed conditions, we will apply 3% monthly interests.

DELIVERY: all deliveries are intended "Ex warehouse – Richmond, BC". Goods travel at receiver's own risk.

CLAIMS ON DELIVERIES: possible claims have to be addressed in writing to Ocean Sailing Enterprises Inc. within eight days from receipt of goods.

GOODS RETURN: any return will have to be communicated in advance to Ocean Sailing Enterprises Inc. and accepted. All returns that have not been agreed upon in advance will be rejected. No refund will be granted for used or damaged material. Shipping costs for goods returns will always be at customer's charge.

SERVICE: personnel is at customer's disposal for any information or need.

PRICE STRUCTURE

Please note the pricing structure for manual and motorized foresail furlers.

In fact, the codes are split into: drum / motorization kit, basic foil kit and extra foils, accessories.

In the following pages you will find a sheet that may help you when placing orders.

TOP-DOWN FURLER FOR ASYMMETRIC SPINNAKERS

KIT MADE UP BY:

- Drum with shackle
- Halyard swivel with shackle
- Special stay
- Clamp with sail tack fitting

SUNNY

Furling system for roll-up shades

KIT MADE UP BY:

- Drum
- Halyard swivel

Price
Upon demand

Bamar Sunny is a new product born from the experience acquired in the marine industry and developed for the civil sector to be used to furl removable / roll-up shades.

Sunny consists of a manual drum and a halyard swivel.

The system is designed to be matched and completed with a NO TORSION stay and awning / shade.

Such stay transmits the torque exerted by the drum.

You manually control the endless line to furl the drum, which allows the "sail" shade to be rolled up.

The system is easy to install and allows you to cover large outdoor areas, leaving ample creative and architectural space to obtain the best result with great ease of installation and use.

WARRANTY

COVERAGE. BAMAR® warrants that each BAMAR® product will be free from defects in material and workmanship. Essential condition for the warranty to be valid is that products undergo maintenance as foreseen in their own Instruction Manual, otherwise warranty is void.

The present warranty is valid for all BAMAR® products purchased to be installed on boats used for recreational purposes, rent, charter or other professional activities.

For defects in material and workmanship of v products, the Owner's sole and exclusive remedy under this WARRANTY shall be the repair or replacement, in BAMAR®'s sole discretion, of the defective part or component, at no extra charge to the manufacturer.

WARRANTOR. Warranty claims have to be addressed directly to Soluzioni Meccaniche srl. When BAMAR® is mentioned in the present Warranty, it refers to the legal entity as defined in this paragraph.

The present Warranty does not cover parts that were not originally manufactured by BAMAR®.

OWNER - NON-TRANSFERABLE WARRANTY. This warranty is made by BAMAR® with only the original purchaser of the product and does not extend to any third parties. The rights of the original purchaser under this warranty may not be assigned or otherwise transferred to any third party.

WARRANTY TERM. This WARRANTY covers any original defects in material or workmanship visible within two (2) years of the invoice date.

NOT COVERED. Neither the present WARRANTY applies to, nor shall BAMAR® be liable or responsible for, damages or expenses relating to defects caused by misuse, abuse, failure to install, use, maintain or store the BAMAR® product as specified in its own instruction manual, catalogue or other literature available from BAMAR®.

Moreover, neither the present WARRANTY applies to, nor shall BAMAR® be liable or responsible for, damages or expenses relating to:

- defects in material or workmanship that did not exist when the product was originally delivered (non original);
- defects in material or workmanship that are manifested outside the warranty period;
- defects which are not reported to BAMAR® within sixty (60) days of discovery;
- a product that has been altered or modified from factory specifications;
- accidents, misuse, abuse, abnormal use, improper use, lack of reasonable or proper maintenance or storage;
- installation, wiring, service or repairs improperly performed or replacement parts or accessories not conforming to BAMAR®'s specifications;
- use exceeding the recommended or permitted limits or loads of the product and/or the vessel on which the product is installed;
- normal wear or deterioration occasioned by the use of the product or its exposure to the elements;
- any use differing from the proper use of sailboat applications;
- should the intervention under warranty be carried out by BAMAR® in due terms, direct and/or indirect damages, such as: loss of time, loss of use, inconvenience, travel expense, costs related to procuring any substitute boat, transportation costs, towing costs, any incidental or consequential damages arising out of the non-use of the boat, or compensation for inconvenience or loss of use while the boat is being repaired or otherwise not available, or other matters not specifically covered hereunder;
- the costs to remove, disassemble or re-install the product;
- the costs or expenses associated with transporting the product to and from BAMAR® or a BAMAR® dealer;
- hauling out, storage and re-launching of the boat on which the product has been installed, even where this is necessary to carry out the warranty service.

In addition, the time required for repair, even if carried out under warranty, does not extend the warranty period.

PROCEDURE. In the event of a defect covered by this Warranty, the Owner shall contact one of BAMAR®'s worldwide Distributors (there is a list of them on the www.bamar.it website). To obtain warranty service for or replacement of your BAMAR® product, your specific and detailed claim must be reported to and received by BAMAR®, in writing, in accordance with the terms of this warranty and within the applicable warranty period. The claim will have to include your name, address, phone number, copy of original sales receipt, a description of the application of the product, and an explanation of the defect and conditions under which the product was used. If the examination of the product and the warranty claim reveals that the defect is not covered by this warranty, you will be contacted by either BAMAR® or a BAMAR® dealer and advised of the cost to repair your product. If you accept this estimate, you give your consent for the product to be repaired outside of this warranty.
